## Visual Notebook: Landforms Due: \_\_\_\_

Directions: label the squares with the highlighted landform term with its textbook definition at the **bottom** of each square. List the terms starting left to right and in alphabetical order with the paper in Portrait mode. There are a total of **16**.

Draw an illustration of each landform and color it using map (color) pencils only.

Friday \_\_\_\_: archipelago, atoll, basin, canyon,

Monday \_\_\_\_: cape, delta, divide, fjord,

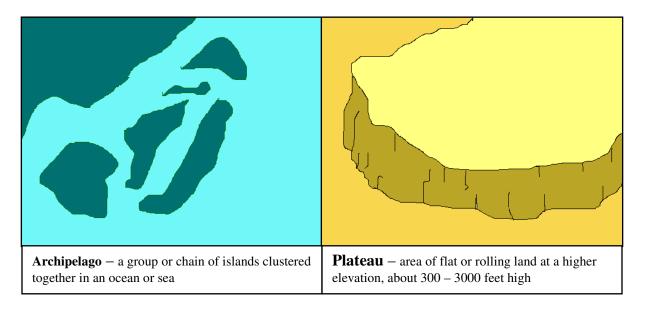

Tuesday \_\_\_\_\_: isthmus, mesa, oasis, peninsula,

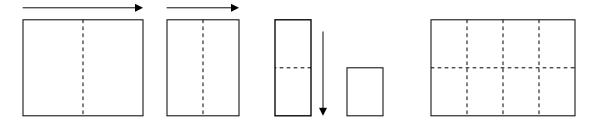

Wednesday \_\_\_\_\_: plateau, river (source, mouth, & tributary), strait, valley

Thursday \_\_\_\_: Notebook is due

Many examples of various landforms can be found in the textbook (read pages 2 - 18)

See the examples below. Definitions must be from the textbook! Others are not allowed

## <u>GEOGRAPHY:</u> <u>LANDFORM\_VISUAL NOTEBOOK</u>
